

Personal performance coaching with the CDU

This is for those who need more expert help with their professional development than is available using normal educational support; perhaps their training progress is unsatisfactory or they are having difficulty at work.

Doctors and dentists can apply for personal coaching if they live or work in the Oxford Deanery and are either in training or already established as a consultant, GP, dental practitioner or in one of the non-training grades.

They may refer themselves or be referred by their trainer or employer.

How the CDU can help

PASS scheme

Dentists may alternatively use this scheme if they need guidance or help.
